WORK LIGHTS
DESIGNED TO DO THE JOB

PROFESSIONAL RANGE OF WORK LIGHTS WITH UNMATCHED VALUE FOR MONEY

Designed to do the job

Whether the task involves being detail oriented or looking at the overall picture, SCANGRIP LITE has got what it takes. Every need for lighting will be met, both in the industry, in the workshop or professionals requiring efficient work light not to mention the passionate amateur enjoying his hobby or anyone in between. What you get is excellent value for money. Still pure SCANGRIP.

Taking advantage of proven technologies

At SCANGRIP we innovate. As our customer you benefit from our lighting experience, using only the technologies that have proven to be the best. Customers of our SCANGRIP LITE products will profit from years of solid research resulting in lasting, durable and functional products.

No-nonsense work lights

The design of the SCANGRIP LITE product line is streamlined, functional and user-friendly. All unnecessary features are omitted for the benefit of precise and handy operation providing good quality work lights. The intuitive ready-to-use work light solutions ensure success right from the start.

Designed by us. Manufactured by us.

// The “ORIGINAL SCANGRIP” symbol is your guarantee that the product is designed, developed and made by SCANGRIP and protected by EU design patent.

High quality

SCANGRIP products are known for high quality with a price-to-quality ratio considered to be the best on the market. We have comprehensive quality check procedures, and we are ISO 9001 certified.

Unique design

SCANGRIP receives strong recognition in the marketplace for unique product design. We are inspired by the concept of Danish design and gather ideas from other industries to create new products that have not been seen before.

Europe’s leading manufacturer

SCANGRIP provides the strongest and most comprehensive range of durable and functional LED work lights and is Europe’s leading and trendsetting manufacturer of work lighting solutions for professionals.

First-mover

SCANGRIP is first-mover and is always two steps ahead when it comes to developing new and innovative LED work lights.

Since 1906

SCANGRIP has manufactured hand tools of very high quality for the industrial and automotive sectors for more than 110 years.

WORK LITE

// Rechargeable, multifunctional hand lamps in slim design

Two new rechargeable and pocket-sized work lights have seen the light of day!

The small (S) and medium-sized (M) WORK LITE hand lamps are no-nonsense, good quality work lights for universal application at a very competitive price.

- Ultra lightweight for optimum comfort
- Slim, compact design
- Patented multi-functional SMART CLIP 4-in-1 system

pat. pend.
SMART
CLIP 4 in 1

With the patented, integrated SMART CLIP 4-in-1 concept the lamp can be positioned in numerous different ways depending on the specific job in question.

ORIGINAL
SCANGRIP

SINCE 1906

SCANGRIP® LITE

// Patented SMART CLIP concept

The WORK LITEs are designed for the professional user who demands functional, practical and user-friendly work lights. The SMART CLIP 4-in-1 system integrates several multi-functions in the same unit. The clip is designed to fit the work belt and carry the lamp, available and at hand when needed for an inspection job.

Flexible positioning of the work light when both hands are needed can be obtained by the strong built-in magnet or by the retractable, turnable hook. Furthermore, the SMART CLIP can be used as a stand on any available surface.

// Ultra lightweight for maximum working comfort

The new WORK LITE hand lamps are technically designed to weigh as little as possible in order to provide maximum working comfort. Due to the very low weight it will be comfortable to hold the lamp in your hand for inspection tasks even for a longer period of time. The slim, compact design with round shapes and no sharp edges also makes it comfortable to carry the work light in the pocket a full working day.

Push with one hand for fast and easy use of SMART CLIP functions

STICK LITE

// Universal handlamps in slim design

STICK LITE is ideal for those who value good, compact design combined with uncomplicated functionality. Regardless if it is for everyday use or a tough job, STICK LITEs deliver what they promise: optimal brightness and handy design to a fair price.

- Powerful work light with top light function
- The main light offers two light settings with up to 100/250 lumen respectively
- Ultra lightweight for maximum working comfort
- Slim and compact design prepared for the pocket
- Strong built-in magnets for handsfree use

ORIGINAL
SCANGRIP

SINCE 1906

// Handy work lights with fundamental features

STICK LITEs are rechargeable, powerful work lights with torch light function enabling convenient and precise work. STICK LITEs are recommended for everyone who need universal, sturdy and handheld work lights. The practical built-in magnets allow you to benefit from the bright light of the STICK LITEs and still having both hands free for work.

EU DESIGN
PATENT

// Ultra lightweight and compact design

The ultra-thin and compact design with round shapes makes STICK LITE comfortable to carry in the pocket ready at hand for the daily inspection tasks. The slim designed work lights are also optimized in weight to provide maximum working comfort.

THIN LITE & STAR LITE

// Universal inspection work lights

The LITE product line offers several efficient handlamps to choose from. All designed for basic inspection work which is carried out at almost any workplace.

The question is if you need the THIN LITE, an ultra-thin rechargeable inspection work light that goes in even the most inaccessible and narrow work areas.

Or you prefer the slim STAR LITE, the basic, traditional inspection work light with cable which does the job. Always 100% reliable.

ORIGINAL

EU DESIGN
PATENT

// Designed for challenging inspection jobs

With a slim headlight of only 12 mm the THIN LITE has its name for a reason. THIN LITE provides powerful illumination and is the ideal work light for very demanding and difficult inspection jobs as the ultra-thin, compact design allows inspection in even the most inaccessible and narrow work areas. The powerful spot light of the THIN LITE provides you with an efficient flashlight function for detailed inspection tasks. For maximized operating time you can choose between 2 light settings (50% or 100%).

Ultra-slim, only
12 mm wide

// Compact for the pocket

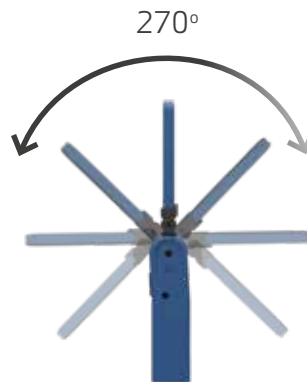

Designed with a completely flexible body, THIN LITE can be reduced to pocket size to take with you everywhere. The strong built-in magnet is for flexible positioning and allows handsfree use.

HEADLAMPS

// Compact headlamps designed for work

In almost every working situation it is convenient to have both hands free to carry out your work as efficient as possible. The HEAD LITEs are developed to provide you with such indispensable and supportive bright work light.

- Choose between Alkaline and rechargeable model
- Sensor function with touchless on/off switch
- 2 light settings for maximized operating time
- Waterproof (IP54) to resist workshop environment
- High wear comfort with adjustable elastic headband

HEAD LITE

€ 39.90

03.5642

Rechargeable headlamp with sensor function providing up to 150 lumen

// Advanced headlamp with 2-in-1 light function

The rechargeable HEAD LITE is designed to provide optimum work light illumination with 2 different lighting functions in one: a floodlight beam angle illuminating your entire work area and a focused beam angle for inspection or long-distance use. Choose between 2 light levels (50% or 100%) depending on your task and need for efficient illumination.

HEAD LITE A

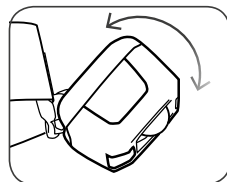

€ 24.90

03.5643

Headlamp with sensor function providing up to 150 lumen

// Comfortable headlamp with batteries

HEAD LITE A is compact designed and comfortable to wear with a soft built-in protection pad to avoid imprint on the forehead. Actually, after only few minutes you will stop noticing you wear it. In spite of the small size, the light output has been improved and optimized for maximum performance, enabling the HEAD LITE A to illuminating your entire work area very efficiently. HEAD LITE A is easy to operate and applicable for all kinds of working tasks.

// Touchless sensor

Both headlamps have touchless sensor function making it easy to switch on/off the lamp by just waving in front of the headlamp. In this way you can activate the lamp with thick gloves, and avoid touching the switch button with dirty hands. To avoid unintentional activation you have to activate the sensor with a dual movement.

// Flexible lighting position

The lamp head is easily adjusted to obtain the optimum work lighting angle.

EU DESIGN
PATENT

FLOOD LITE

// Range of 3 high performance floodlights in cool design

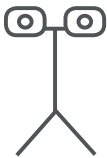

- Lightweight and compact in slim design
- Powerful illumination up to 3000 lumen
- Durable housing made of shock-resistant plastic material
- Choose between more light settings depending on actual job
- Built-in power bank
- Charging indicator

// Compact floodlights designed for professional use

FLOOD LITE is a series of three compact floodlights easy to carry around from job to job. The sturdy and durable housing of the FLOOD LITEs is made of a highly shock-resistant plastic material, constructed for use in the demanding working environment.

// Flexible positioning

The FLOOD LITEs can be positioned onto the SCANGRIP TRIPOD providing a stationary work light solution in a height of up to 3m. If a mobile lighting solution is requested the FLOOD LITE can be mounted on the SCANGRIP WHEELSTAND. A dual bracket for positioning of two lamps is also available as optional accessory.

// Power bank

Built-in power bank with USB outlet to charge mobile devices

180°

// Flexible stand

The stand made of powder coated steel can be used to hand-carry the lamp, as a hanger or to position the lamp in the desired lighting angle.

VEGA LITE - a range of LED floodlights

ORIGINAL
SCANGRIP

SINCE 1906

// Innovative, high performance work lights

The VEGA LITE range consists of 3 high quality floodlights in cool design offering very powerful light output at an attractive price.

- Powerful, diffused, non-blinding illumination
- Durable housing made of highly shock-resistant plastic material
- Rechargeable version with DUAL SYSTEM
- For indoor as well as outdoor use
- No fire hazard due to minimum heat production

// Powerful, diffused LED light

The many powerful LEDs of the VEGA LITE floodlights provide a diffused and pleasant, non-blinding, uniform work light, with a large dispersion.

// Designed for professionals

The lightweight, sturdy and durable housing of the VEGA LITEs is made of a highly shock-resistant plastic material, constructed for use in the demanding working environment. Contrary to traditional halogen work lights heat production is minimal avoiding fire hazard. The stand is made of powder coated steel and can be mounted directly on the SCANGRIP TRIPOD.

// Unique functionality

The VEGA LITE 1500 C+R is with the unique DUAL SYSTEM which means **both** rechargeable **and** with 5m cable providing complete flexibility and unlimited application possibilities.

AREA LITE

ORIGINAL
SCANGRIP

SINCE 1906

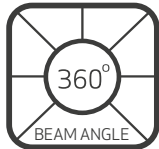

// 360° high performance LED work light

- A must-have universal light for any working site
- Illuminates the entire room and working area
- Powerful, diffused, non-blinding illumination
- Durable housing made of highly shock-resistant plastic material

// Illuminating the entire working area

The AREA LITE is a real basic work light especially designed to illuminate the entire room 360° around. The AREA LITE provides a diffused and pleasant, non-blinding, and uniform work light with large dispersion. These features are ideal for the demanding craftsman who requires powerful and efficient illumination of not only larger surfaces but the entire room carrying out any kind of repair, paint or construction work.

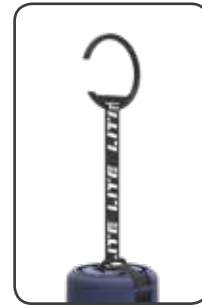

// Powerful 360° work light

AREA LITE is very powerful providing 4000 lumen which is more than double light output compared to similar lamps on the market. AREA LITE is extremely sturdy and durable and withstands being dropped.

// Flexible positioning

The AREA LITE can be positioned directly on the workbench or hang in the sturdy hook from any mounting option available. SCANGRIP mounting stands offer completely flexible lighting solutions; the lamp can be mounted directly onto the TRIPOD without any time spent on fastening obtaining a height of up to 3 m. If you need a mobile light that can be moved quickly from place to place the lamp can be mounted directly on the WHEELSTAND.

EU DESIGN
PATENT

More lamps can be connected in a string by the power outlet of the AREA LITE CO and can also be used as power source for various tools and machinery.

RETRO LITE

ORIGINAL
SCANGRIP

SINCE 1906

// 360° LED work light in cool design

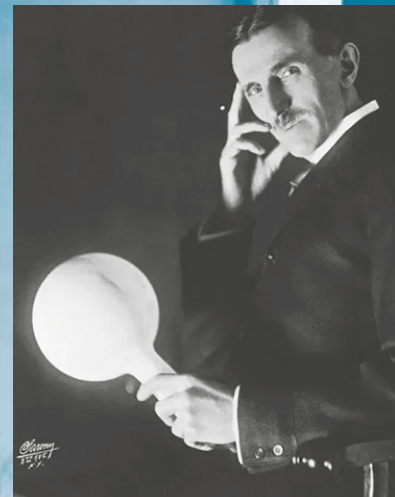

- Illuminates the entire working area
- Position as you like with 2 opposite hooks
- Powerful, diffused, non-blinding illumination
- Durable housing made of highly shock-resistant plastic material

“SCANGRIP is innovation and so was Nikola Tesla, a contributor in the race of inventing the electric light. Today we are remembering and embracing innovation by continuing down the road of exploration.

As with the incredible minds of scientists and engineers, always coming up with new ideas, we are at SCANGRIP embracing innovation and in particular the future of lighting, the LED. Anders Borring, owner and CEO, is passionate about lighting and is driven by a desire to constantly improve and develop.

The contemporary design of the traditional electric hand lamp features ergonomic, soft forms and round edges. The design makes sure the lamp fits perfectly in hand and the hook fastenings make sure you have both hands free when new ideas arise!

RETRO LITE will generously spread its light in the room in a diffuse, smooth and yet clear way. Nikola Tesla would have loved working in the presence of this retrospective tribute to past discoveries.”

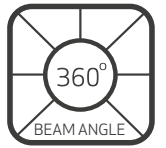

// Illuminating the entire working area

RETRO LITE is basically a re-thinking of the original hand-held globe light which is traditionally used and beloved everywhere in the world in all kinds of industries.

EU DESIGN
PATENT
4070035

STANDS and SUSPENSION

ORIGINAL
SCANGRIP

SINCE 1906

// Designed for direct mounting of VEGA LITE, FLOOD LITE, and AREA LITE work lights without bracket. Made of durable and sturdy powder coated steel for both indoor and outdoor use.

// High stability tripod adjustable up to 3 m

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area. The SCANGRIP TRIPOD is extendable from only 1.35 m up to 3 m which gives you complete flexibility to position the light in the requested height.

The stable construction of the SCANGRIP TRIPOD makes it safe even when fully extended. To increase safety when in use the cable of the lamp can be fixed in the safety clips placed on each separate leg.

// Wheel stand for mobile positioning of the work light

The SCANGRIP WHEEL STAND is developed for mobile positioning of the work light typically in the workshop. It makes it easy to move the light to where you need it, and at the same time you avoid uncomfortable and heavy lifting from one workplace to the other. When the job is done the stand can easily and fast be put aside.

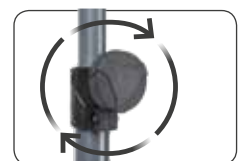

The SCANGRIP WHEEL STAND is extendable from only 0.7 m up to 1.9 m which gives you complete flexibility to position the light in the requested height. The 3 wheels are sturdy and of high quality and roll easily even on uneven surfaces. 2 of the wheels are lockable to secure a safe and fixed position.
